FISMA A&A; ISSO; Security Risk Management

### Diversified Chemical Technologies 2014

Vulnerability Assessment; Forensics

## COMPANY OVERVIEW

We are a cyber security company led by an experienced security executive with over 25 years' service to Industry, the DoD and Civilian agencies. Our goal is to help organizations strategically secure information, cyber infrastructure and innovation by strategically reducing the risk of emerging cyber threats, obtain industry compliance and gain customer trust. We are uniquely positioned to help our clients achieve mission focused information assurance since our primary focus is on cyber security. Although our services are cybersecurity-centric we collaborate and effectively communicate with executive leadership, program management, network operations, engineering and architecture organizations to ensure cohesive solution delivery using quality assurance & agile methodologies. We develop & apply innovative vendor agnostic solutions aligned with client goals using quality standards, research & evaluation prior to implementation

## DIFFERENTIATORS

- Delivery Speed is based on practical program goals and transparent timelines. **When ACSG commits, we deliver as expected.**
- Competitive up-front pricing. **Transparent pricing and subscription plans** allow clients to prioritize budget in alignment with strategic goals and available resources.
- Personnel Trained in our total client success framework. Anyone can provide a "tech". **ACSG resources are trained to deliver client success.**
- **Key Resources** available throughout the entire engagement. **ACSG cybersecurity client success team** includes a privacy lawyer, CISSP, Service Specific Subject Matter Expert (SME), program management and 24x7x365 access to support.
- We're available. In addition to our knowledge bases, **ACSG has live representatives** to answer specific inquiries and respond to cybersecurity.
